

Veracity Machine, LLC is driven to provide precision machining and specialized welding to a diverse group of customers globally to include oil & gas, automotive, dredging, pump, valve, and agriculture industries.

Mission: We (Veracity Machine, LLC) take pride to ensure complete and total customer satisfaction. We provide our customers with timely, well-priced, high-quality products. We accomplish this with a strong quality management system and qualified/trained personnel. We listen to our customer's needs, transforming those needs to improve products and services.

Core Specialties – In House

Machining

- Climate Controlled Shop
- Precision CNC Lathes, Mills and Cutting
- 25" Max Diameter and 84" Max Cut Length

Welding

- SAW and GTAW Processes (Inconel 625 Over 4130)
- Hard Facing: Stellite 6 and Colmonoy
- Overlay and Joining Capabilities DNV/ABS Approved
- Stress Relief Oven

NDE Inspection

- Climate Controlled Inspection Facility
- Dimensional, MPI, UT, LP, and Hardness Inspection

Engineering Design

- Professional Engineering Personnel On Staff

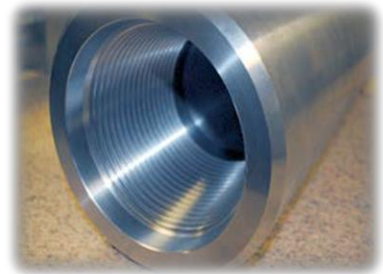

Additional Capabilities – Through Qualified Partners

- Coating: Xylan, Epoxy & Phosphate
- Heat Treatment
- Shipping: Packaging & Transportation

Machines/Capabilities

- HAAS SL N40L Lathe (25" cut diameter, 84" cut length, 7.1" through hole spindle, 9- 5/8" Prog. Omni rest, 20" 4 jaw independent chuck, 55hp)
- **Two** ST40L HAAS CNC Lathe (25" cut diameter, 84" cut length, 6.5" through hole spindle, 12.5" Omni rest, 21" 3 jaw chuck, 55hp)
- **Two** HAAS ST40LLT CNC Lathe with Live Tooling Center (25" cut diameter, 84" cut length, 6.5" through hole spindle, 12.5" Omni rest, 21" 3 jaw chuck, 12.5 HP Milling capability, 55hp)
- HAAS ST40 CNC Lathe (26" cut diameter, 44" cut length, 6.5" through hole spindle, 12.5" Omni rest, 21" 3 jaw chuck, 55hp)
- HAAS ST 30 Lathe (21" cut diameter, 26" cut length, 31.75" swing diameter, 30hp)
- Puma 300L Lathe (17" cut diameter, 60" cut length, 6-5/8" Prog. Omni rest, 30hp)
- VF-8 HAAS MILL (4 Axis Milling station, 7.5" through hole, 16" 3 jaw chuck with 8-5/8" bore, Renishaw wireless probing, CAT50 spindle, 30hp)
- Programmable Auto Feed Band Saw (12" cut diameter)
- Dapra Dot Pen Stencil (programmable with serialization and logo)
- **Two** ARC 5 Semi-Automated Welding Machines (Hot wire pulse, 625 Inconel, 36" turn table)
- **Two** Jetline GTAW manipulator Welding Machines with Miller Maxstar Welders (Cold wire, 625 Inconel, 24" turn table)
- 7000 Series Brinell Hardness Tester with B.O.S.S. scope
- Magne-Tech Magnetic Inspection Unit (8 ft. bed)
